HISTORY

OUR MISSION

It is our mission to be THE reference in the upholstered furniture industry in North America by standing out for the quality of our products. To produce quality products, we strive to provide all our employees with a pleasant working environment.

VISION

RESPECT Between team members, from external partners to our team members and vice versa, respect allows us to maintain a harmonious relationship on which exchanges can be built.

INTEGRITY Transparency and honesty must be reflected in all our communications and actions. Although degrees of confidentiality may apply, everyone must be able to speak and act with a good conscience, and be able to explain their choices.

SYNERGY At Jaymar, we advance as a team. Teamwork is felt in decisions and the execution of tasks. Team cohesion leads to trust between staff members, an essential component in successfully attaining objectives and a timeless quality of products and services.

INCLUSION Jaymar is an inclusive company. Inclusion does not only apply to gender, sexual and religious orientations, or ethnicities, it also encompasses the ideas of the whole team and all occasions, to question themselves and grow together.

PRIDE Working at Jaymar is synonymous with pride in everything concerning the products, the team members, and its history. Without pride, Jaymar would not have been in business since 1956 remaining a mainstay in the upholstered furniture manufacturing industry.

OUR VALUES

Jaymar is an integrated company where design, quality, and comfort are our source of pride!

1956

Jaymar founded by George Reinitz in Montreal
