RECLINING MECHANISM

New Suprema mechanism

The Suprema™ Advantage PM+ from Leggett & Platt offers a superb blend of premium deep seating and variable reclining positions to achieve the ideal comfort position. The full-motion mechanism provides an ultra-smooth synchronized operation that can effortlessly support 350 lbs (158 kg).

MOTORIZED HEADREST*

Multi-position headrest

The motorized headrest option allows for adjusting the headrest position to the precise degree of comfort by pressing the control button. A wall clearance of 6" to 8" is required during full recline.

## LOMBAR SUPPORT*
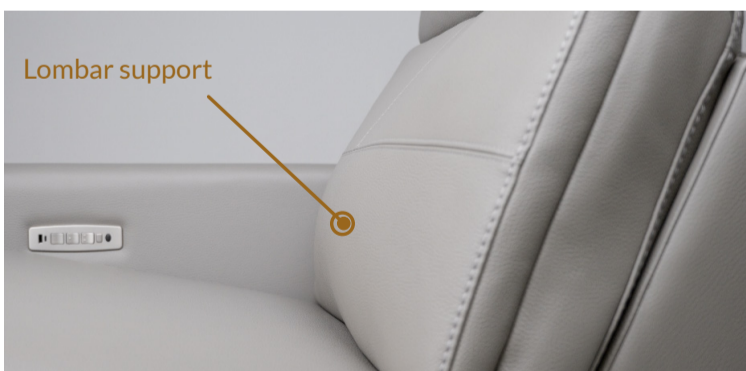

Lombar support

The pneumatic lumbar support option provides additional reinforcement to the backrest to enhance your comfort. Similar to the headrest, the lumbar support offers variable inflatable adjustments to be positioned according to the occupant's preference.

HEATED BACK*

Heating pad

Heating pad warming the surface of the back to a temperature of approximately 25 degrees, providing a sense of well-being; beneficial for relaxation.

Heated back
USB Type A & C socket

The multifunction control button manages the chair's motorized recline and headrest, lumbar support, heating pad for the back, and reset function. USB A/C port included.

USB A/C PORTS

Includes both Type A and Type C USB ports to keep all your devices fully charged. When connected to a battery, charging may deplete more quickly.
